Comments from 2017 Graduating Student Survey

<b>Survey</b>			
<b>#</b>	<b>Div</b>	<b>Major</b>	<b>In particular, what contributed most to your ability to succeed in your studies while attending Cincinnati State?</b>
343	BTD	CUL	Co op
196	BTD	CUL	Participation in team and individual competition, as well as time spent with instructors after labs.
394	BTD	CUL	The availability of my chefs and professors. Most of them got on a very personal level with the students and I felt as if I could go to them with any concerns.
546	BTD	CUL	The care my instructors in my labs took to make sure we were all learning the most that we could and teaching us things that would be valuable to us in our future workplaces

Comments from 2018 Graduating Student Survey

Survey			
#	Div	Major	Please explain or comment on any area of concern that you have about CS that influenced your responses.
196	BTD	CUL	The time spent with the junior culinary team helped to push me out of my comfort zone and realize the potential I could achieve. I will admit I was upset that there wasn't a culinary team this year due to the lack of funding, and the thought that it didn't have much of an impact on the students. It helped me to achieve a level of confidence that I didn't have before and I value my time spent during the long hours of practice.
