Work Experience Comments

- Small company, great place to work
- I had a bad experience in my co-op. I didn't learn a lot. My supervisor was very rude and I didn't learn from him.
- Jag's has been a great place to learn and is a very conducive environment for learning.
- This is something that I recommend students who are scared to work in a kitchen do. I think taking this internship was the best decision I have ever made for myself. I have learned more in the past 5 months than I could have ever imagined!
- I developed an expertise in the Pantry station. I was not able to move on to other stations.
- Work is great. I am enjoying the job, the company and people in entirety. I will be moving up the ladder soon and very excited about new challenges.

Co-op Coordinator Comments

- My co-op coordinator was very helpful. He always listens to me. He helped me get a job at the same company and at a better place.

Recommendations:

- I don't think any changes need to be made
- Students have to start co-op since the first year.
- More communication between the Co-op coordinator and the work supervisor on goals of the employee.
- If My Co-op Coordinator would have been better at communication! He was almost impossible to reach except for one time.
- I don't know.
- One thing might be to have an assignment or two. Like you have to write a paper describing your semester of co-op and how it has shaped your career path, and how it differs from previous co-op semesters.

Co-op Experience:

- The coordinator has been awesome to work with and always answers my questions
- The Co-Op program is a great opportunity to learn.
- I am beyond satisfied with my Co-op position and where that has taken me. Stepping out of my comfort zone wasn't the worst thing after all.
- Co-op is a great tool and I am very glad it is a requirement for my major.

Work Experience Comments

- Great
- I feel like working at bakery hill is a good start to my future as a pastry chef.
- I really enjoyed working at Bakery Hill and have learned so much from Chef Vanfleet and Chef Stanton. I feel that I am prepared for any future employers in pastry.

Co-op Coordinator Comments

- My coordinator made sure to check on my progress at Bakery Hill

Recommendations:

- Nothing
- I think more meetings should be done instead of having a final paper. Also I feel like my co op coordinator should at talk to me when he visits me at my job.
- More job opportunities for pastry

Co-op Experience:

- Great job
- I loved my co-op position, just not the instructor and assignments
- Great program that I have recommended for anyone interested in pastry and culinary

Work Experience Comments

- Co workers were very supportive but It was not the place for me.
- I've learned a lot about decorating cakes from working at Sam's and from my coworkers. Everyone had their own way of doing things and watching them has helped me learn how to ice and decorate cakes efficiently without the cakes looking bad.
- This position was a very good start for me, considering this was my first job as a cook. I had opportunity to learn and grow as an employee and person.
- Amazing boss and co workers!

Co-op Coordinator Comments

- My coordinator obviously cares about how students are doing in their workplaces.

Recommendations:

- Maybe more time to find a job and decide if it is the right fit.
- I think no changes should be made
- I feel that the process of setting up the online portion of the Co-op could be better communicated, because it was a little confusing at first.
- More time to look and find a suitable job

Co-op Experience:

- Pretty good program, very helpful.
- The co-op program has helped me to learn more about the pastry field and to give me more experience.
- Overall this was a very good experience for me and I think that having Co-ops for students is a very good way for students to figure out how they would like to focus their careers.
- very helpful program!

Work Experience Comments

- I liked the job and the people, however they only worked me during the afternoon to close hours, in which case, I felt I wasn't using what I learned in labs and applying them to work. Nor was I doing what I was going to school for. Most of my job in the afternoon was to clean up and work up front, while I am going to school for baking. I did work the mornings, however when I worked mornings, I specifically worked customer service, not in the back. Lastly, I had signed up for a full time co-op and they only worked me once a week (despite knowing, I told them and my advisor spoke with them). We changed my co-op to part time and I was still not worked the required amount of hours.
- Love the job so far and will probably stay for awhile.

Co-op Coordinator Comments

- My Co-op coordinator did a great job helping me figure out where to co-op, and what goals to set.

Recommendations:

- I think it'd help if maybe co-op advisors were more aware of what students were doing at co-op. Not just in communicating, but maybe making unannounced visits to ensure the students are doing what the supervisor says they are. For example, my supervisor said that I was getting more hours than I was and that I was doing more than I actually was.
- Nothing.

Co-op Experience:

- I think the program is great, but you have to find the right co-op environment.
- good program

Work Experience Comments

- Working at the school was fun and convenient
- It has been a great job so far!

Co-op Coordinator Comments

- My Co-op coordinator is great!

Recommendations:

- Being a Federal work study as a co-op limits the job opportunity after school, and the pay is not great.
- Maybe if you could consider the situation and not require someone who is using a current job to fill out as many learning outcomes. I understand why it's important, but it is really hard to determine 3 learning outcomes when you are not new to the job. Obviously you want us to learn at co-ops but sometimes when you've been at a job before using it as a co-op it is hard to say what new things you are going to learn in advance.

Co-op Experience:

- Overall I enjoyed it and I would do it again
- Everything went well this semester.

Work Experience Comments

- I entered neutral or average for almost everything because I believe this evaluation should not exist. You can not base this experience off of any other experience given because our world is literally falling apart in the Americans hands. We as students and teachers are just trying to stay mental and physically healthy. I appreciate the time and efforts my coordinator and other coordinators took to keep our education going through these tough times. It helped keep my mind active.
- Was consistently challenged to work more efficiently, to be more creative, and to create better products. Was introduced to cooking and baking techniques and recipes I was not familiar with before. Was able to stay late after work to get help from chef when practicing recipes or developing my own.
- Even though it was not as hands-on as I wanted it to be, I still learned quite a bit about the responsibilities of running a business in this career field.
- Work experience was valuable with the COVID restrictions.
- happy to have kept my job as my co-op.

Co-op Coordinator Comments

- I entered neutral or average for almost everything because I believe this evaluation should not exist. You can not base this experience off of any other experience given because our world is literally falling apart in the Americans hands. We as students and teachers are just trying to stay mental and physically healthy. I appreciate the time and efforts my coordinator and other coordinators took to keep our education going through these tough times. It helped keep my mind active.
- Extremely thoughtful when it comes to what the true goal of Co-Op is and willing to be flexible with me to achieve it and show that I did.
-

Recommendations:

- COVID could have a cure. I do not feel right judging a course based off of the recent events in life for everyone.
- Encourage students to look for internship options from many people in their program, not just the coop advisor. My coordinator helped me find my first one, but Chef Galvin from the Culinary program helped me find the next.

- I do not feel that anything should be changed about this program. There was a good balance of help from the Coordinator and having to go through processes on your own. It was a very good way of preparing us students for the rest of our lives.
- I think the changes that had to be made for COVID were handled really well, so I don't have any recommendations.

Co-op Experience:

- Thank you for taking the time to create a course for the students in such short notice. Cincinnati State Professors really showed grit through out this.
- I feel much much more confident about entering the work force after this program. I have a better idea of what the work environment will actually be (knowing school book knowledge will only go so far) and feel more practiced and desirable as an employee.
- I really enjoyed the program, I think it is great that I did not have a choice of having a Co-op job or not. It was a very good way of making sure students graduating were going to have a job out of college
- Thank you.
- The challenge of quantity and quality of my work were affected by the lower sales from COVID, the way my job is normally I would strongly agree.
- Good semester.
