

Dear Students,

I hope you are staying well and safe during these challenging times.

We understand that COVID-19 has made students' summer schedules difficult to predict and might have delayed your signing up for classes, so **Cincinnati State will waive late registration fees for anyone registering for Summer Semester.**

There's still plenty of time to register for our 10-week Summer semester, which starts on June 1. Summer features a wide range of courses taught using remote delivery, from discussion-based classes using web-conferencing tools, to carefully designed online courses that you can work on at any time of day or night.

It is also a great time to register for Fall classes. Seats are plentiful and registering early means you can select from the widest variety of courses. If you need help planning, our Academic Advisors and Program Chairs are ready with virtual and phone appointments.

Cincinnati State students have shown amazing perseverance and flexibility during this pandemic, and we're here to make sure that you don't lose momentum as you progress towards your goal of completing your degree or certificate.

If you have questions about Summer or Fall semester or would like to make an appointment with your academic advisor, contact your division, and we will make sure you get the help you need.
