

Cincinnati State School of Practical Nursing-Program Learning Outcomes

- Collaborate effectively within nursing and inter-professional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care.
- Integrate best current evidence with clinical competence and patient / family preferences and values for delivery of optimal health care.
- Demonstrate effective clinical reasoning skills, critical thinking skills, teaching practices and cost-effective nursing strategies.
- Promote safety of both patients and health care providers through individual performance and system effectiveness.
- Use information and technology to communicate, obtain and apply knowledge, prevent error, and support decision making.
- Practice professional nursing behaviors incorporating personal responsibility and accountability.
- Demonstrate caring behaviors that foster well-being, a sense of self-worth and dignity in patients, families and others in the healthcare environment.
