2025 – 2026 Nursing Education Program Annual Report

Curriculum Plan

NURP- LPN to RN Track

Nursing Course Name	Theory Clock Hours	Lab Clock Hours	Clinical Clock Hours	Total Course Clock Hours
NUR 105 Nursing LPN to ADN Transition	45	45	0	90
NUR 106 Nursing LPN/ADN Bridge (peds/med surg)	36	45	38	119
NUR 201 Concepts 4 (med surg, mental health, maternal newborn)	105	12	168	285
NUR 202 Nursing Concepts 5 (med surg)	90	2	120	212
TOTALS	276	104	326	706

Hours must reflect every clock hour that a student is required to be present in the nursing program. The time needs to be accounted for in one of 3 categories: theory, lab, clinical.

Clinical Clock Hours reflect all hours designed to meet the clinical outcomes in preparation of the clinical experience including orientation, direct patient care, observational experiences and mandatory clinical progress evaluations. HI Fi Simulation lab in obstetrics, newborn and pediatrics may be considered in "clinical" hours.

Lab Clock Hours include college skills lab and med surg or mental health simulation experiences.
