

Cincinnati State Dietetic Technology

Mission of the Dietetics Program

The program will provide experiential learning in preparing students for entry into positions involving food, nutrition, foodservice management and dietetics. We promise to:

- Be student/customer-centered
- Support success based academic standards
- Provide best-practice clinical and experiential learning
- Provide comprehensive academic offerings
- Offer students the route to success

Program Goals

Goal 1:

The Dietetic Technician Program will effectively prepare graduates to pass the national registration examination for Nutrition and Dietetics Technicians, Registered (NDTR).

Program Objectives: (Dietetic Technician)

1. Seventy percent (70%) of program graduates will pass the national registration exam for dietetic technicians on their first attempt.
2. Seventy percent (70%) of program graduates will pass the national registration exam for dietetic technicians within one year of their first attempt.
3. At least 80% of students complete program requirements within three years (150% of planned program length).

Goal 2:

The Dietetic Technician Program will effectively prepare students with diverse educational and personal experiences with the knowledge, skills, and abilities necessary for successful employment in entry-level positions in food, nutrition, foodservice management, and dietetics, consistent with the professional responsibilities of a Nutrition and Dietetics Technician, Registered (NDTR).

Program Objectives: (Dietetic Technician)

1. Of graduates who seek employment, at least 65 percent are employed in nutrition and dietetics or related fields within 12 months of graduation.
2. Eighty percent (80%) of employers of Dietetic Technician graduates will rate graduates' performance at 4 or better on a scale of 1 to 5.

3. Eighty percent (80%) of graduates from the Dietetic Technician degree program will rate their faculty and academic advising performance at 4 or better on a scale of 1 to 5.
4. At least 80% of Dietetic Technology program graduates responding to the graduate survey will rate their preparation for entry-level practice in food, nutrition, foodservice management
